- B. **Whitestown Connector Interlocal Agreement Update – Craig Parks** said they are currently in the land acquisition process of the stage. The land acquisition costs are much more than expected. It was expected to be around \$600,000 but is now closer to \$1million due to the appraised value of the land since the initial estimate. **Clinton** asked about the possibility of different routes to try to save money, but **Craig** said this

would be the most cost effective routes to go with. **Jeff** asked if it was typical to be as far off on estimates; **Craig** said when it was originally estimated in 2011, the cost of land was much lower, so it is hard to always pinpoint a cost. **Susan** said there was a land owner who was willing to donate land to be used for this, but the federal government does not let a wetlands be effected if there was an alternate route. The federal government wants the least amount of environmental impact.

Susan was surprised about Eminent Domain being used so quickly. **Craig** said several people have accepted offers, but several others have countered with double the appraised value of the offers.

Eric said he would appreciate it in the future if he was kept in the loop and not have to find out about this from the paper. **Susan** reiterated **Eric's** concerns. **Eric** said he felt there was total lack of communication, and felt it was disrespectful. **Craig** apologized for not keeping the council up-to-date.

- C. **Farm Heritage Trail Branding – Friends of Boone County Trails – Darren Warren**, from Lebanon said there have been significant changes in the group, and discussions came up about the name of the trail. **Darren** apologized about the breakdown in communications regarding the change of the trail name. **Darren** said all of the big trails in the state pay homage to old railroad lines.

Dan said the **Big 4** gets its name from the big 4 cities, Chicago, Cincinnati, Indianapolis, and Detroit. **Dan** said he does not think the trail reflects an agricultural theme. **Dan** apologized for not communicating with Whitestown about the name change. **Dan** said they have applied for grants to get more of the trail paved by Thorntown. **Dan** reported the trail is getting used more.

Susan said she is not against the re-branding of the trail to the Big 4. **Clinton** said he would like to echo what **Councilor Austin** said and how the trail, and how it connects to all of the towns is a move forward. **Jeff** suggested having color coded or signs noting when people are in Whitestown on the trail signs.

3. CLERK TREASURER REPORT

A. Town Management Report I WMU Management Report.

- B. **Discuss Payroll Services – Matt** talked about how the payroll currently requires duplicate work to be done as well as costing approximately \$10,000 more, annually, than the payroll software offered by Frey (the current software company used for accounting by the town). Switching to Frey would save approximately 26 days of work time and reduce payroll costs annually by approximately \$10,000. **Matt** asked the Council to allow the expenditure of just over \$7,000 to get the new module license and training. **Clinton** asked about the various fees, and **Jeff** talked about how the Town had previously purchased a license for the module but never utilized it a few years ago.

Susan m/m to allow CT to spend the money to purchase the license and get the training, Clinton 2nd; 4-0 adopted.

- B. **PUBLIC HEARING** Consider an Ordinance Approving an Additional Appropriation (**Ordinance 2016-20**) – **Clinton m/m to close public hearing, Susan 2nd, 4-0 to close.** **Eric** asked if there was any discussion before moving to 2nd reading. **Clinton** said **Jason** and **Dax** have done a great job of getting this together. **Dax** said there is a match with this spending up to \$1million. **Dax** said he and **Jason** are way ahead of the game for getting this done. **Eric** thanks **Dax** and **Jason** on their leadership on this. **Clinton** said this was great work and we are in a great position. **Eric** asked **Nathan** to discuss the \$55,000 requested for Parks. **Nathan** said \$5,000 of it is for a trailer for fencing and moving Parks equipment. The other \$50,000 is for a mobile stage. The stage could be rented to other communities to help reduce to overall cost. **Nathan** said it would be a long term investment. The next closest bid was for a stage which cost \$120,000 and would need to be shipped to Canada. The current stage is in Arkansas and costs \$100,000 (we would get matching money to pay for it). **Jeff** asked how often it would be used. **Nathan** said it could be used a lot. **Nathan** said if we had it, we would probably use it more than we think. **Clinton** asked how much we have paid on stage rental over the last few years. **Nathan** said

last year, we spend about \$2,200 last year. **Clinton** said the \$100,000 is not giving us a good return on investment since we currently only spend a few thousand dollars per year on them now. The stage does not come with sound equipment. **Eric** asked **Steve** about any new State laws regarding stages after the incident at the State Fair. **Steve** was not aware of any, but will make sure.

Clinton asked where the money was coming from. **Nathan** said some would come from Parks, **Dax** said another part of the funds would come from CCD funds. **Clinton** said this would cut the CCD fund in half right before the 20-year plan, which would require a lot of money. **Clinton** expressed concerns about putting half of that money toward a stage before considering using the money for public safety projects. **Eric** thought there were more prudent uses for the money.

Susan sees it both ways. She said she is frugal, but sees the opportunity costs of not having a stage. She said it could be used in our branding efforts and other communities have stages at their events, and the cost of purchasing a stage would only go up in the future. She thinks it should probably be a Town asset instead of a Parks asset to be able to completely utilize it. **Susan** said it is a lot of money though. **Susan** said Parks Board members had some issues with the price as well, but she would like the Council to look beyond just the costs of the stage. **Eric** thinks it could be a good thing, but thinks it is more appropriate for the Capital Improvement Group could look further into it to see if it is something we would really need to purchase at this time. **Clinton** asked about if we would have enough time to make a decision in the next Council meeting.

Nathan said this was special pricing, reduced by \$25,000 from the normal cost as it was a miss-order. **Jeff** said it is always difficult with wants vs. needs.

Eric asked **Steve** if we would be held liable for any injuries if we rented it out and someone was hurt. **Steve** said we would need to have insurance coverage.

Eric said he is not supportive of the \$50,000 for the stage, but does support the \$5,000 for the trailer.

Nathan said the Parks Board wanted to at least get permission to move the money from unappropriated money to be allowed to spend it if the Board and the Council approve it.

Clinton asked about if there was harm to hold off until finding out what the Parks Board decides. **Nathan** said there is no harm in holding off until the next meeting.

Susan asked **Nathan** to put together a more complete picture of what the use would be and when everything would happen (events it would be used at, storage, how long it lasts, cost of insurance, etc...)

Clinton m/m to suspend rules, Susan 2nd, 4-0.

Clinton m/m to adopt for Initial Appropriation Ordinance 2016-20 for the \$375,717 in capital outlays and the \$1,127,155 of paving with \$0 for capital outlays and tabling the \$55,000 in Parks outlays. Susan 2nd, 4-0.

- C. Consider an Ordinance Creating a Youth Council (**Ordinance 2016-21**) – **Eric** said he was very excited about this ordinance, and thinks it should have done years ago – he blames himself. **Eric** thinks this is very important to help the youth, who are our future and this could help create ways to help the youth in our community and it allows them to have real power and authority, and they would get to see how local government can help the community. **Dax** thanked

Councilman Miller, and said it would be a council of 7. Students would need to live in the Town of Whitestown. Homeschool students are available to join as well. It is open to all Freshmen through Senior students who reside in Whitestown. **Dax** said they are the ones we are building the community for, not for ourselves.

Susan asked if this will cover the benefits for the new officer, **Chief** said it would. **Susan** asked what the timeline would be. **Chief** said by early July he could make a recommendation to the Police Commission at that time. **Susan m/m to authorize the hiring of a replacement at this time, Clinton 2nd, 4-0 to approve.**
